Please note the following review comments for further incorporation / action:

1	Obtain approval from Civil Defense for fire alarm/emergency lighting installation and comply with their regulation.
2	Obtain final drawing approval from DEWA for all electrical installation and Comply with their regulation.
3	All fire alarm, emergency lighting system and firefighting system should be carried out only through building facilities management & their approved contractors.

General Notes:

1. The design review comments above do not imply review or approval of actual installation/intended functional performance and do not absolve Designer/Contractor from fulfilling their design/contractual obligations.
2. Fit-out permit must be displayed at construction site all the time; failing which fine will be applicable as per DDA fining regulations for violations.
3. Contractor must comply with Health, Safety and Environmental regulations by TECOM/DDA throughout the construction period.
